

U.S. ARMY

BPM Practical Audit Applications for Audit

June 2021

**FMCOM Business Process Management
&**

**Office of the Assistant Secretary of the Army
(Financial Management and Comptroller)**

Version 1.0

14 April 2021

U.S. ARMY

Agenda

- **Business Process Management (BPM) Overview – Chris Reynolds**
- **Army Process Portal (APP) – Chris Reynolds**
- **Army Control Catalog APP Synergy – Chris Reynolds**
- **APP Refresh – Rachelle Las Sabe**
- **BPM Integrated Data Store (BIDS) – Rachelle Las Sabe**
- **Implementation Through Training – Rachelle Las Sabe**
- **Business Process Improvement Concept of Operations – Chris Reynolds**
- **Tech Team Alignment to BPM documents – Johanna Sears**
- **Incorporate BPM Documents into Audit Walkthroughs – Johanna Sears**
- **Audit Walkthrough Presentation Flow – Johanna Sears**
- **Army Control Catalog – Johanna Sears**
- **Contact Information**

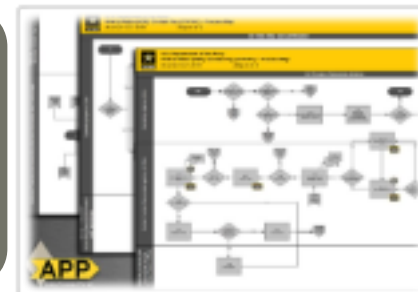

U.S. ARMY

Business Process Management

To improve and optimize Army processes that pertain to finance policies, systems, and reporting requirements; provide end-to-end field implementation support for process improvement and compliance; and deliver campaigns that improve readiness and establish a culture of audit success

Key Functions:

- **Business Process Improvement:**
 - Analyze, improve and sustain process standards annually
 - Enterprise Business Systems Convergence – Multi-Functional Capabilities Team Support
 - **Business Process Assurance:**
 - Test the design of process controls
 - Remediate process and control gaps through collaboration with the field and headquarters
 - **Integration & Governance:**
 - Training and Compliance
 - Program & Systems Management
 - Strategic Communications & Organizational Preparedness
 - Army Process Portal (APP) Sustainment, Enhancement and Integration
- <https://army.deps.mil/Army/cmds/USAFMCOM/bps/SitePages/Home.aspx>

Army Process Portal (APP)

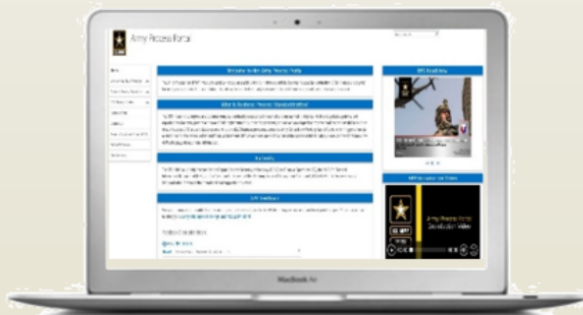

Process Standards

- Acquire-to-Retire (Real Property & Equipment)
- Civilian Pay
- Contract Vendor Pay
- Disbursing
- Environmental Liabilities
- Funds Receipt and Distribution
- Fund Balance w/Treasury
- Financial Reporting
- Government Purchase Card
- Local National Pay (Belgian, Dutch, German, Korean and Italian)
- Military Pay
- Plan-to-Stock (Inventory & OM&S)
- Reimbursables –RWO (Buyer/Seller)
- Supplies (MILSTRIP)
- Transportation of People
- Transportation of Things

What is the APP?

The Army Process Portal (APP) is an online resource designed to provide you with easy access to the latest information on Business Process Management (BPM), process standard documentation, and Army policies.

Who can access the APP?

It is available to all Soldiers, civilians, and contractors with a Common Access Card (CAC).

How often should I visit?

The APP is dynamic. Process standards are continuously updated to remain accurate. Please check back often for the most up-to-date information.

What will I find on the APP?

- Process Maps, Process Details, All Things Audit, Process Cycle Memorandums
-  Army Control Catalog
- Job aids, training, and user procedures,
- Audit checklists and model packets
- DASA-FO policies
- Change Request System
- Army and Security Assistance Account

<https://army.deps.mil/Army/cmds/USAFMCOM/bps/SitePages/Home.aspx>

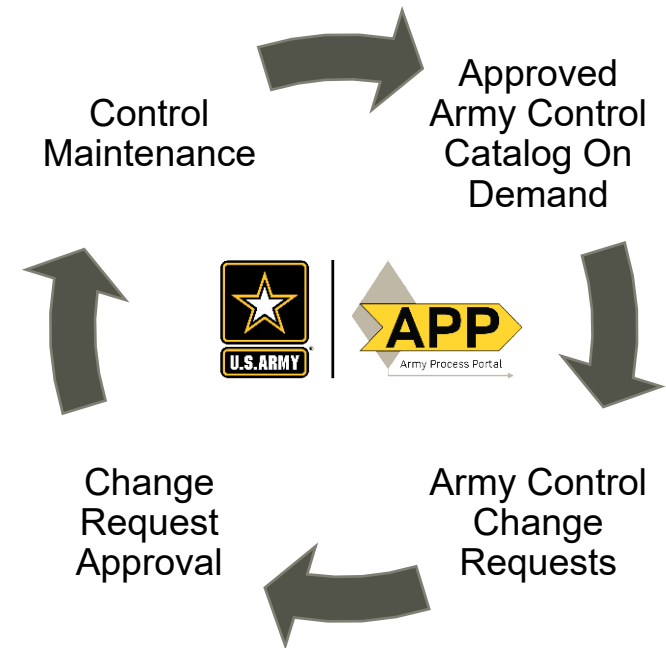

APP and Army Control Catalog Synergy

Combining Army Control Catalog with APP provides:

- Accessibility: Viewable by Stakeholders with Common Access Card access
- Portability: Retains the ability to export to a spreadsheet format for analysis or distribution
- Visibility: ACC becomes line of sight for all users
- Efficiency: Streamlines ACC change request, approval, and update processes – **COMING SOON**
- Agility: Approved changes immediately visible on portal
- Force Multiplier: Both contributes and benefits from APP “one stop shop” value proposition
- Context: Provides insight, common ground, and language for Army Process Owners, Process Performers, Audit Cells, & Auditors
- Opportunity: Centralizing control data with Army business processes sets stage for many possible future efficiencies and integration (CUECs, RCMs, etc.) – **COMING SOON**
- Centralization: Aligns BPM documents, financial risks, and Army Controls in one location to simplify and show the complete process picture for the end user demonstrating holistic Risk Management Approach
- Sustainable: APP platform maintained by FMCOM BPM and Army Control Catalog data maintained by DASA-FOA
 - Platform allows for multiple users to be able to perform maintenance, while limiting access for the general user
 - SharePoint provides the flexibility to link, integrate, or transfer data to future solutions, should the need arise

APP Refresh Goals

Consistently identify opportunities for improvement, enhancement, and to meet the needs of ever-changing technology

- * Remove reliance on Silverlight
- * Reduce level of effort to maintain APP
- * Improve user experience
- * 'Click' reduction
- * Reduce or eliminate Third Party WebParts (i.e. QuickApps)

Process Standard Landing Pages

Prototype: <https://army.deps.mil/Army/cmds/USAFMCOM/bps/Compendium/AllThingsAudit/SitePages/Process-Standard.aspx?PSID=7>

Launch Interactive Maps

Additional Resources

Additional Resources
(formerly the 'Tools' widget)

Overview	
1.0 Establish Site/Property	6.0 Develop Site Remedy
2.0 Approve Site	7.0 Develop Project Remedy - Formerly Used Defense Site (FUDS)
3.0 Approve Property and Project - Formerly Used Defense Site (FUDS)	8.0 Conduct Site/Project Closeout
4.0 Develop/Update Environmental Liabilities (EL) Cost to Complete (CTC) Estimate	9.0 Perform Roll Forward Procedure
5.0 Develop/Update Environmental Liabilities (EL) Cost to Complete (CTC) Estimate - Formerly Used Defense Site (FUDS)	10.0 Prepare Environmental Liabilities (EL) for Financial Reporting

All Things Audit

The Environmental Liabilities (EL) process includes all business functions necessary to identify environmental cleanup, closure, or disposal issues that represent an environmental liability of the Department of the Army (DA), to develop cost estimates, expenditures related to the response actions required to eliminate the identified EL, and to report EL appropriately in the financial statements. An environmental response is any action taken to restore, clean, remedy, or remove an identified contaminant. The Department of Defense (DoD) Financial Management Regulations (FMR), Volume 4, Chapter 13 defines an environmental liability "as a probable and measurable future outflow or expenditure of resources that exists as of the financial reporting date for environmental cleanup costs resulting from past transactions or events." The EL systems, Headquarters Army Environmental System (HQAES) and Formerly Used Defense Site Management System (FUDSMS), are not financial systems and do not interface with the Army General Ledger. The Army posts a journal voucher for the EL balance during the Defense Departmental Reporting System (DDRS) data call process which is captured in Financial Statement Compilation and Reporting (FSCR).

Click through the sub process links above to learn more about the EL sub processes and the key controls, key supporting documents (KSDs), and systems captured within them.

Additional Resources

- Audit Tools
- Change Requests
- Key Acronyms
- Policies
- Process Cycle Memorandum
- Process Details
- Process Maps
- Process Standard Memorandum

BENEFITS

- Retains look and feel of original page
- Now dynamically populated based on URL
- Adds efficiencies for maintenance

Sub-Process Landing Pages

Prototype: <https://army.deps.mil/Army/cmds/USAFMCOM/bps/Compendium/AllThingsAudit/SitePages/Sub-Process.aspx?SubID=227>

Launch Interactive Maps

Additional Resources (formerly the 'Tools' widget)

Approve Site

Overview

The Approve Site is a sub-process in which information concerning a newly identified site whether Active, Base Realignment and Closure (BRAC), or an Excess, is reviewed and approved at the Army Program Manager level, which is one level higher than the Installation in the chain of command.

All Things Audit

Key Controls

EDL-EDL-001

As part of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) Preliminary Assessment (PA)/Site Inspection (SI) or the Resource Conservation and Recovery Act (RCRA) solid waste management unit (SWMU) assessment report (SAR) or RCRA Facility Assessment (RFA), the installation personnel in accordance with Federal laws (i.e., law (CERCLA, RCRA) verifies that (a) the potential contamination site identified during preliminary assessment is an active Army Installation and that the Army is legally liable; or (b) the site was under the jurisdiction of the Secretary and owned by, leased to, or otherwise possessed by the United States at the time of actions leading to contamination; or (c) the Army has formally accepted financial responsibility for cleanup. An authorization email from LHC Restoration Analyst/USAEC Environmental Office is used as evidence that the assessment documentation has been approved.

EDL-EDL-002

A potential site is reviewed, once received, to determine the site meets all criteria including DERP eligibility. This control is evidenced by OACSIM Environmental Division/LHC/USAEC final approval, which only occurs during the spring or fall data call. The DERP eligibility review process concludes with either an approval or disapproval of the DERP Eligibility Submission Form (DESF) as evidenced by signature and date from LHC/USAEC and OACSIM.

On the process maps, **key controls** are depicted as:

Interactive Process Maps (IPMs)

Additional Resources

- Audit Tools
- Change Requests
- Key Acronyms
- Policies
- Process Cycle Memorandum
- Process Details

BENEFITS

- Retains look and feel of original page
- Now dynamically populated based on URL
- Adds efficiencies for maintenance

Interactive Process Maps

BENEFITS

- ✓ **Silverlight not required**
- ✓ **Improve user experience**
 - ✓ **Improved accessibility with Interactive Maps**
 - ✓ **'Click' reduction**
 - ✓ **No Ctrl key required**
 - ✓ **New navigation control key**
- ✓ **Reduce or eliminate Third Party WebParts (i.e. QuickApps)**

BPM Integrated Data Store (BIDS)

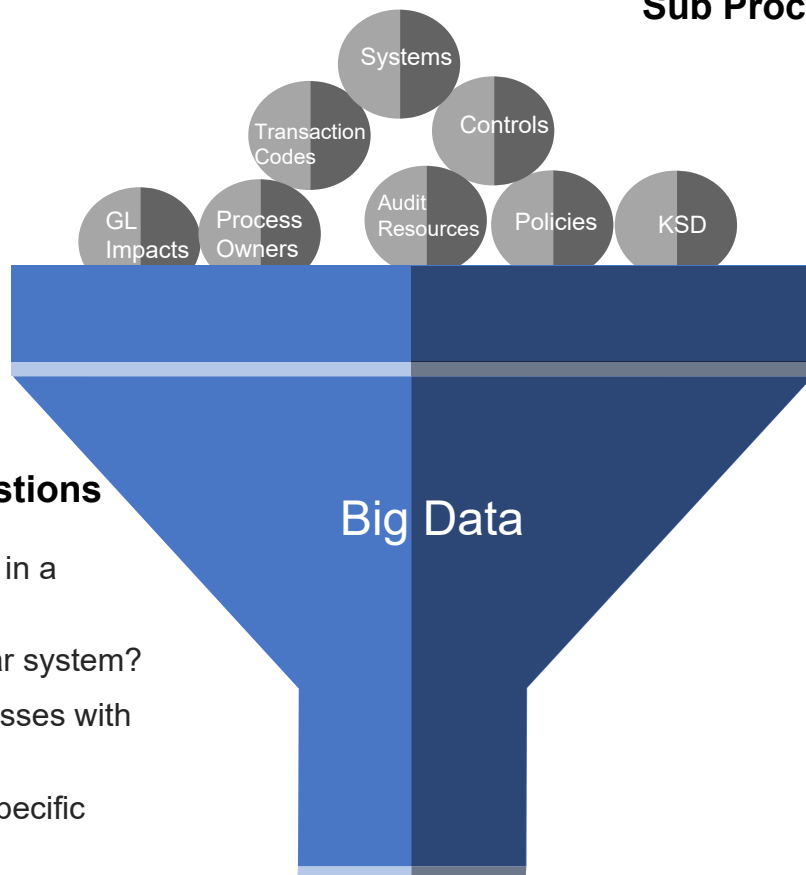

U.S. ARMY

Practical Applications for BIDS

Sub Process Data Element Examples

- Systems
- Transaction Codes
- Army Controls
- Key Supporting Documents
- Related Policies
- Related Audit Resources
- Process Owners
- GL Impacts

Provides Insights and Answers Mission Critical Questions

- Which process owners are involved in a process?
- Which processes include a particular system?
- What systems are included in processes with a GL impact?
- How many processes reference a specific transaction code?
- Which process standards will be impacted by a policy change?
- What are the GL impacts in a process standard? All process standards?
- Where is a particular Army Control used across all processes?

Actionable Intelligence

Focus on Implementation Through Training

Audit Support Training

U.S. ARMY

Purpose

Educate the audience on how to use the BPM documents as a starting point when preparing for walkthroughs

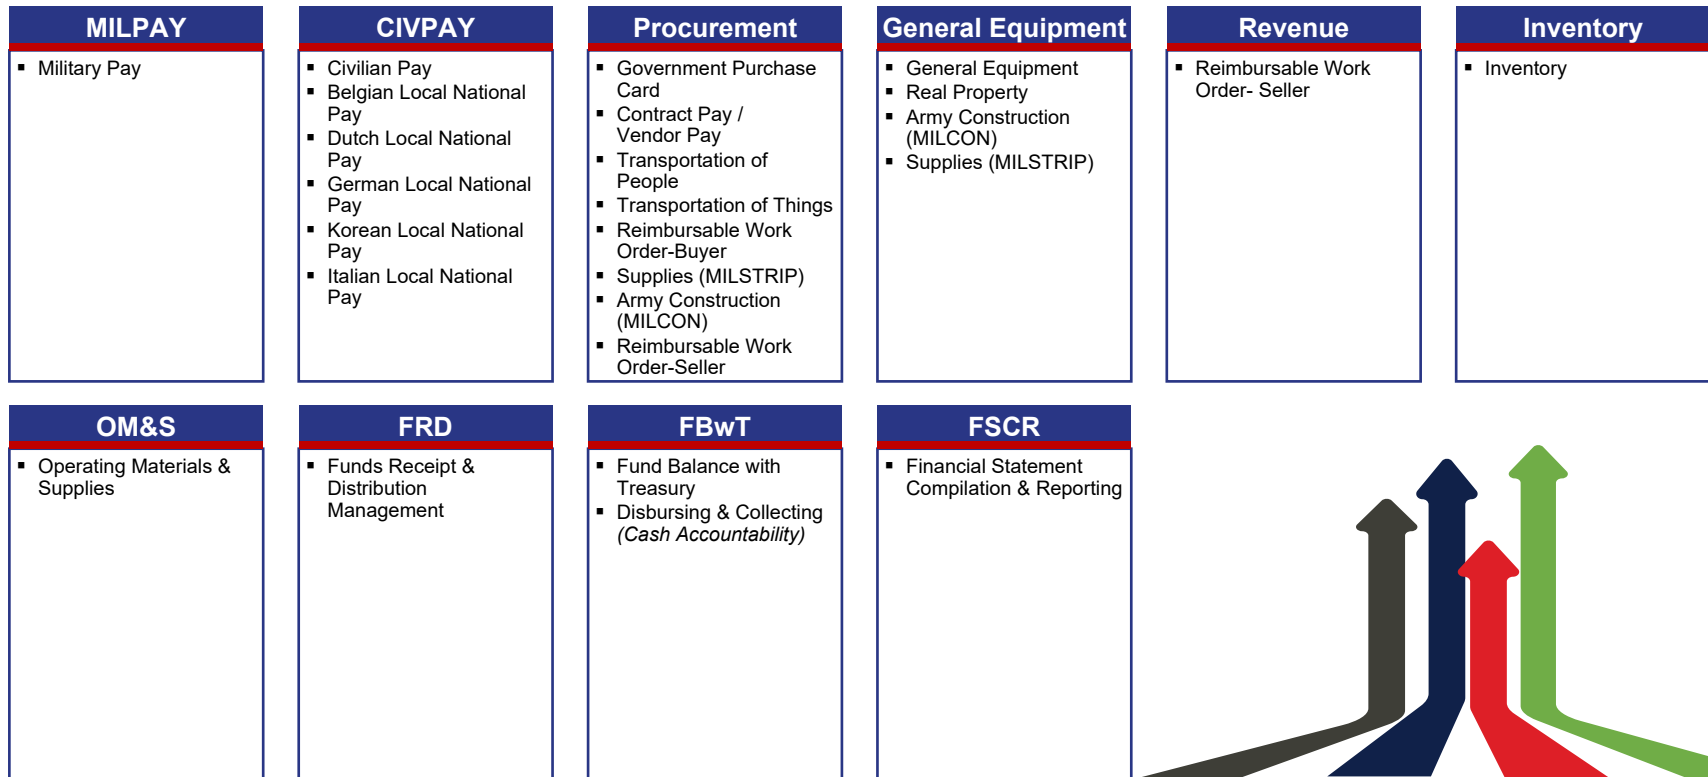

U.S. ARMY

Tech Team Alignment to BPM Documents

U.S. ARMY

Incorporating BPM Documents into the Walkthroughs

ALL BPM process map and details should be submitted to the auditors as a ***PBC request***

- Sample of PBC Request from Auditor:

“Please provide the available Standard Operating Procedures (SOPs), Process Narratives, and Process Flowcharts related to the use of contracts, to include the use of financing payments and holdbacks, to procure goods/services.”

Once the auditor has selected the processes for walkthroughs, the Tech teams will work with the Commands to begin populating the templates for the walkthroughs.

- As you begin to populate these templates, it is vital that you revisit the business process maps and details for clarity on any steps.
- If you notice a process is outdated or has changed since it was published, you can request a BPM change control on APP

U.S. ARMY

Incorporating BPM Documents into the Walkthroughs

Business Process and Sub-Process Overview

This is where you would input a high level understanding of the business process (Supported by BPM maps).

Current Year Transaction Reference

This is where you would incorporate a current FY example from beginning to end of one transaction in the business process.

Detailed Process Description

This is a live walkthrough of each step in the process. You will need to use different transactions as timing will likely not allow for one transaction to be followed from beginning to end in real time.

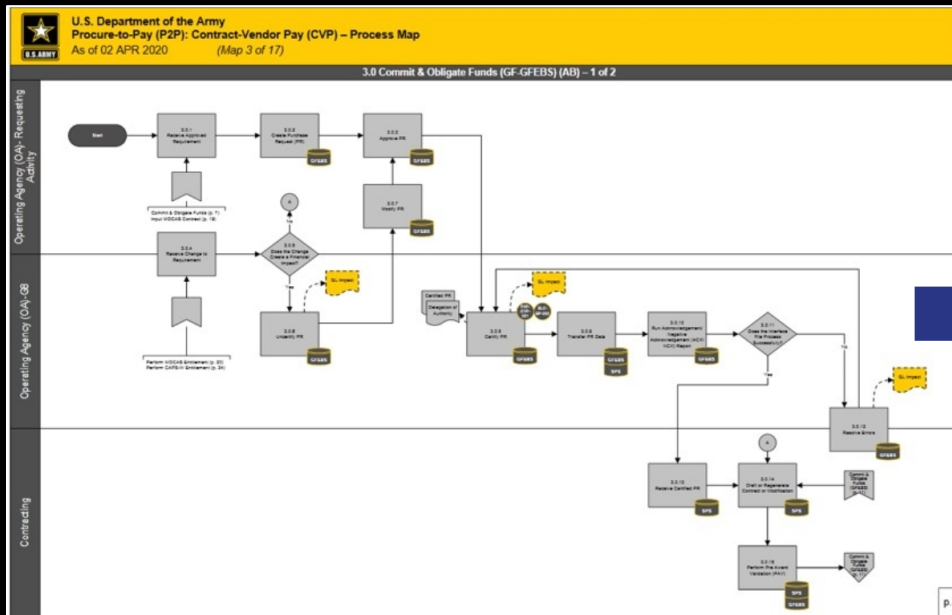

Here is an example of how the Procurement team incorporated the BPM maps and details into the [FY21 Walkthrough - Business Process Template](#)

Incorporating BPM Documents into the Walkthroughs

How to leverage the BPM documentation for a successful audit

GFEBs Transaction:	Receive Requirement	Create Purchase Requisition	Release Purchase Requisition	Release Purchase Requisition
GFEBs T-Code:		ME51N	ME 54N	ME54N
Personnel Responsible:	Network Personnel	PR Creator	PR Approver (L1)	Funds Certifier (L4)
Key Supporting Document:	D&F, J&A, Market Research, Product Description, Requirements Memo	SPS PR 1145026	GFEBs Screenshots	GFEBs Screenshots

Taking this ...

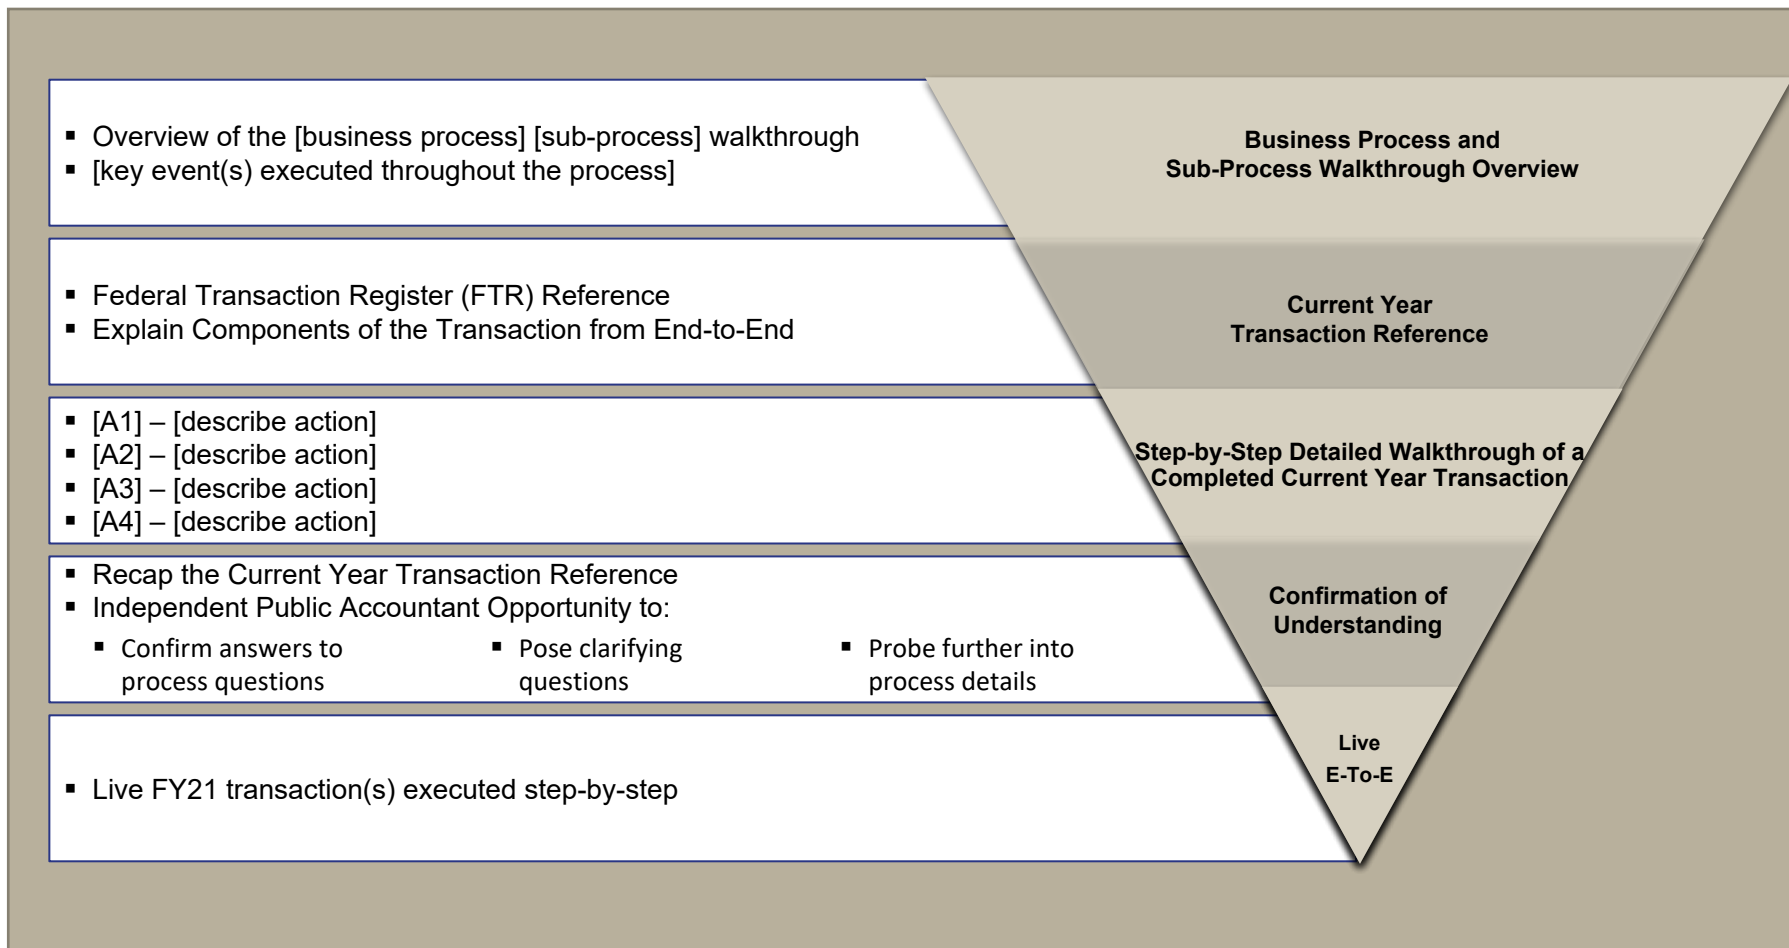

... and turning it to this.

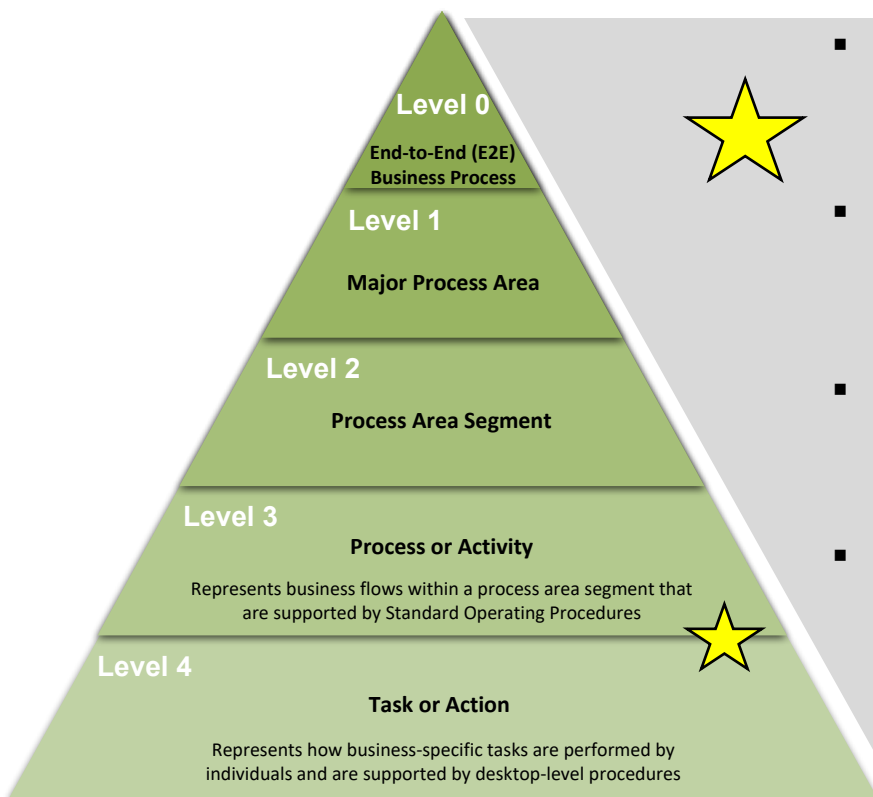

U.S. ARMY

Walkthrough Presentation Flow

Current Control Levels

- Level 3 controls are generalized in order to conform to control activities across General Fund, AWCF and sometimes SAA.
- Level 4 controls are at a more detailed level to conform to specific control activities occurring at each subprocess.
- The RMIC team has updated all GPC controls and will continue to update all other process controls to move them from a level 3 to a detailed level 4 control.
- The Test of Design initiative is currently being completed for all financial controls within the Army Control Catalog.

U.S. ARMY

What is the Control Catalog?

The DASA-FOA within ASA (FM&C) currently maintains the Army Control Catalog to ensure the control language is correctly recorded. The catalog contains Financial Statement key controls that are identified in the Business Process Management (BPM) documentation.

Current Scope

- Army wide and entity level controls
- Controls that impact the Financial Statements
- Key controls
- Controls are within the BPM scope

U.S. ARMY

Identify Controls for your Process Area

- **Central Control naming convention represents the end to end process (A2R - Acquire to Retire).**
- **The second part represents the subprocess (GEQ – General Equipment).**
- **The third part provides sequential numbering of the controls.**

Filterable View

Control Number	Control Description	Control Category	Control Purpose	Frequency	Significance	Test Automation	End2End	Process Standard
A2R-GEQ-001	The primary hand receipt holder (PHRH) and/or PBO conducts a physical inventory of assets. This control is evidenced by signed and dated inventory results.	Transactional-Level Control	Detective	Annual	Key Control	Manual	A2R	A2R-E
A2R-GEQ-002	General Equipment added/removed to/from the Accountable Property System of Record (APSR) is reviewed and approved by the PBO. The PBO is appointed in writing by the Commander with the appointing memorandum identifying the property book by UIC (AR 735-5 Section I; AR 710-2 2-8, DA PAM 710-2-2 23-27 (DA Form 1687)); PHRH is appointed by the Commander. This control is evidenced by a signature and date on one of the following forms: -For receipts: o DD Form 1348-1A, Issue Release/Receipt Document o DA Form 2765, Request for Issue or Turn-In o DA Form 3161, Request for Issue or Turn-In o DD Form 250, Material Inspection and Receiving Report o DD Form 1149, Requisition and Invoice/Shipping Document o DD Form 1150, Request for Issue/Transfer/Turn-In o WAWF -For transfers: o DA Form 3161, Request for Issue or Turn-In o DD Form 1348, Issue Release/Receipt Document o DD Form 1150, Request for Issue/Transfer/Turn-In The equipment is posted into the APSR within seven calendar days for Active Army or 30 calendar days for Army National Guard and Army Reserve following receipt and acceptance.	Transactional-Level Control	Preventive	Continual	Key Control	Manual	A2R	A2R-E
A2R-GEQ-003	On an as needed basis, the approving authority approves the disposal schedule and signs the DD 1348-1A after reviewing for errors.	Transactional-Level Control	Preventive	Continual	Key Control	Manual	A2R	A2R-E
A2R-GEQ-004	Units perform quality assurance reviews after completion of physical inventories to ensure APSR records are supported by source documentation as evidenced by signature and date on Command Supply Discipline Program (CSDP) checklist and report. The frequency in which this control is performed is dictated by command type, as prescribed in AR 710-2, Appendix B, Supply Policy Below the National Level.	Transactional-Level Control	Detective	Annual	Key Control	Manual	A2R	A2R-E
A2R-GEQ-005	Financial Reporting/IV Approval - On a quarterly basis, the Office of the Assistant Secretary of the Army (Financial Management & Comptroller) – Financial Operations & Reporting (OASAFM&C) – FOR) prepares a journal voucher that accounts for the assets held in the Accountable Property System of Record (APSR). This entry is reviewed and approved by OASAFM&C – FOR leadership prior to submitting to Defense Finance and Accounting Service for posting. The approval is evidenced by email.	Transactional-Level Control	Preventive	Quarterly	Key Control	Manual	A2R	A2R-E
A2R-GEQ-006	On an as needed basis, the appointed accountable personnel acknowledges that the contractor has received the equipment. The acknowledgment is evidenced by the signature of the appointed accountable personnel on the DD 1149, DD 1348-1A, AMSEL Form 1141, DA 3161 DD 250 or DA 2062.	Transactional-Level Control	Preventive	Continual	Key Control	Manual	A2R	A2R-E
A2R-GEQ-007	On an as needed basis, the appointed accountable personnel approves the reviewed GFP request. This approval is evidenced by the appointed accountable personnel's signature on the DD 1149 and DD 1348-1A.	Transactional-Level Control	Preventive	Continual	Key Control	Manual	A2R	A2R-E
A2R-GEQ-008	On an as needed basis, the PBO receives and reviews the contractor signed DD 1149 for completeness and accuracy. The review of the DD 1149 is evidenced by the existence of the corresponding Fiduciary Listing.	Transactional-Level Control	Preventive	Continual	Key Control	Manual	A2R	A2R-E
