

2022 ARPA-E Energy Innovation Summit Important Update

After much consideration, ARPA-E has decided to reschedule the 2022 ARPA-E Energy Innovation Summit to late May. The reason for this is to have as many teams, stakeholders, speakers, etc. attend the event as possible, to make for a more robust conversation. It became apparent that it would not be possible to do so in March.

The 2022 ARPA-E Energy Innovation Summit will take place **Monday, May 23rd through Wednesday, May 25th** at the Gaylord Rockies Resort & Convention Center in Denver, Colorado.

Registration

There are no further actions you need to take. Your registration has already been moved over to the new dates.

Hotel Room

If you already reserved your hotel room, the Gaylord will be canceling all reservations for the previous Summit dates. You will have the opportunity to rebook your hotel room when the new hotel room block links are posted on the Summit website in the coming week.

Technology Showcase Awardees & Partners

There are no further actions you need to take. Your booth location will remain the same and any orders you have placed will be transferred over. An updated exhibitor kit and AV order form will be posted shortly.
