## ABOUT #ICEID2022:

The Centers for Disease Control and Prevention will host the 11th International Conference on Emerging Infectious Diseases (ICEID) August 7-10, 2022, at the Hyatt Regency Atlanta hotel in Atlanta, GA. Held every 2-3 years, the conference brings together more than 1500 public health professionals from around the world to encourage the exchange of the latest information on issues affecting the emergence, spread, and control of infectious disease.

Organized in collaboration with the Task Force for Global Health and with scientific input from more than 30 national and global partners, ICEID 2022 will mark the 11th occurrence of this premier infectious disease conference. The program includes plenary and panel sessions with invited speakers, oral abstract and poster presentations, and multiple scientific and public health exhibitors—all focusing on emerging and re-emerging infections.
