

## **SelectUSA State FDI Database Questionnaire**

The “SelectUSA State FDI Database Questionnaire” seeks to collect information from U.S. **state-level** economic development organizations (EDOs) on their state’s FDI promotion strategies and resources. Responses provided in the questionnaire will be published on the SelectUSA Investment Summit website and as part of our “SelectUSA State FDI Database,” a new tool for foreign business investors. By filling out this form you consent to SelectUSA publishing your responses on the SelectUSA Investment Summit website.

SelectUSA works with EDOs to promote and facilitate greenfield FDI into the United States and does not actively engage or support M&A activities. Please tailor your responses to include only strategies and resources specific to greenfield FDI promotion.

Please note that all answers will be published as written, so we ask that you direct your responses to a foreign business investor audience.
